

accesshealth
Your Community Health Center

MISSION STATEMENT

"Dedicated to excellence in providing integrated healthcare services to improve the quality of life in the communities we serve."

Factors Affecting Health Outcomes

Clinical Care

- Access to Care
- Quality of Care

\$3.5 Trillion

Physical Environment

- Air & Water Quality
- Housing & Transit

\$81 Billion

Health Behaviors

- Tobacco Use
- Diet & Exercise
- Alcohol & Drug Use
- Sexual Activity

Social & Economic Factors

- Education
- Employment
- Income
- Family & Social Support
- Community Safety

Care Coordination Team

Care coordination is part of the special programs offered at AccessHealth. This team is dedicated to connecting patients with all non-medical resources/services. Whether the resources/services are coming directly from AccessHealth or referred to our community partners, every patient who indicates a need will be assisted.
